Comment [3]

X • Your code does not contain block comments above your methods

√ • Very nice and explanitory line comments.

Style [4]

√ • Effective white space before & After every methods
√ • Method Components are spaced evenly and w/ properly alligned indents.
√ • Displays effective modularity as each method does not attempt to do multiple different actions.

Robustness [4]

√ • All methods complete their specified actions w/o errors or exceptions.
X • Main method outputs can be better labled for readability.

Readme [2]

√ • organized well between method priorities, methods to-do list, and dev plan.
X • Imprecise language such as "similar-to"
X • No explanation of how methods work.
